

“Seniors deserve specialized care and I want to be sure they get it. It brings me joy to help them feel better, improve their medical outcomes and have a higher quality of life.”

About Pratik Pandit, MD

When Dr. Pratik Pandit was growing up, he admired how physicians shared their knowledge with patients in a caring way. Dr. Pandit knew then that he wanted to make a difference for patients, too. After medical school, he chose to specialize in geriatrics. “Seniors deserve specialized care and I want to be sure they get it,” Dr. Pandit says. “It brings me joy to help them feel better, improve their medical outcomes and have a higher quality of life.”

When he’s not seeing patients, Dr. Pandit likes to keep up to date on the latest medical information. He also enjoys spending time with friends and loved ones, playing board games and traveling.

Pratik Pandit, MD
