

Dedicated Senior
Medical Center

A CHENMED COMPANY

"I love being able to coordinate care for seniors and see the big picture. Their needs are more complex, and it's rewarding to help them feel better about their health and their lives."

About Timothy Flynn, MD

Ever since high school, Dr. Timothy Flynn has been driven by a passion for science and helping others. It's led him through a fulfilling career as a board-certified internal medicine physician. Having worked in primary care, urgent care, and hospitals, Dr. Flynn says, "I love being able to coordinate care for seniors and see the big picture. Their needs are more complex, and it's rewarding to help them feel better about their health and their lives." His favorite part is building relationships along the way.

During down time, Dr. Flynn keeps up with medical research, relaxes with family, makes videos with his son, and plays the guitar, harmonica, and piano. He also enjoys golf, mountain biking, kayaking, hiking, and wakeboarding.
