

“The most satisfying part is helping seniors overcome challenges and improve their quality of life.”

About Alexis Rodriguez, MD

Ever since childhood, Dr. Alexis Rodriguez has been passionate about the medical field; and it led him to become a board-certified internal medicine physician. “I truly love having the opportunity to make a difference for others,” Dr. Rodriguez says. As he meets with patients, Dr. Rodriguez takes time to understand them, treat them with compassion, and emphasize preventive care. “The most satisfying part is helping seniors overcome challenges and improve their quality of life,” he adds.

When not caring for patients, Dr. Rodriguez likes to keep up with medical research, spend time with his wife and kids, run, play basketball, listen to music, and go to the beach. One day, he hopes to visit Spain and Argentina as well.
