

**“I am grateful and honored to provide safe, effective treatment for our senior community.”**

**About Veronika Tynes, DOM, AP**

For as long as she can remember, Dr. Veronika Tynes has been driven to help people and reduce their suffering. That compassion led her to become an acupuncture physician, contributing to the more complete care and healing of patients. “I am grateful and honored to provide safe, effective treatment for our senior community,” Dr. Tynes says. “They respond quite well to acupuncture. They’re finding relief—many for the first time—which is resulting in a more positive outlook on life along with a feeling of hope and wellness.”

When she’s not caring for patients or soaking up more knowledge on integrative medicine, Dr. Tynes enjoys time with her family. She also loves to unplug, read, rest and visit the beach.
