

“As a physician, I found out that each word and act I do can impact my patient’s day, and I always try to make a positive impact.”

About Sally Azzo, MD,

As a dedicated physician, Dr. Sally Azzo strives to provide patients with happiness and comfort. Growing up with physician parents and watching them interact with patients made her “eager to follow the same steps.” Dr. Azzo is passionate about early detection and management of high-risk diseases and says she views each patient as family. “As a physician, I found out that each word and act I do can impact my patient’s day, and I always try to make a positive impact,” she says.

Beyond healthcare, Dr. Azzo enjoys spending time with her friends and family, particularly her husband, son, and nephews. She finds joy in table tennis, cooking Middle Eastern dishes, and traveling. Scotland is at the top of her travel list.
