“Support patients to achieve their healthcare goals and outcomes through a shared decision-making process.”

About Temitope Olagbaiye , DNP, FNP-BC, ENP-BC

Temitope Olagbaiye, is a board-certified family nurse practitioner, was inspired to work in healthcare after receiving medical treatment in high school. He strives to “support patients to achieve their healthcare goals and outcomes through a shared decision-making process.” Temitope Olagbaiye adds, “It is an honor and pleasure to serve humanity.” He particularly loves working with the senior population to prevent hospitalization, keep seniors healthy, safe, and happy at home through health promotion and primary healthcare services available to the senior population.

In his free time, he enjoys watching documentaries, listening to the news, traveling, and staying active with his church, both locally and on mission trips. Temitope Olagbaiye also loves spending time with his family.
