

“Seniors have served and contributed to our community their entire lives. I am excited to have the opportunity to serve them.”

About Adrienne Joyner, DPM

Dr. Adrienne Joyner’s interest in medicine began as a child while watching her mother help others as a nurse. “As a podiatrist, my goal is to enhance the quality of life for seniors by providing VIP podiatric care, she says”. She loves listening to patients and building relationships with open communication. She especially loves working with the senior population. Dr. Joyner has a special interest in wound care and diabetic limb salvage. “Seniors have served and contributed to our community their entire lives. I am excited to have the opportunity to serve them,” she explains. She is thankful for the opportunity to help patients through better foot health and often participates in seminars and hands-on workshops to keep up with medical advancements.

Dr. Joyner loves spending time with her husband and children when she is not with patients. She is also a proud United States Air Force veteran.
