

“I am their voice, their advocate, and partner in their health journey.”

About Ashley Uney, MSN, FNP-C

Ashley Uney, a dedicated family nurse practitioner, likes connecting with patients by listening to their stories and “being present” in conversations. “I am their voice, their advocate, and partner in their health journey,” she says. Ashley Uney loves empowering patients and feels “dedicated and honored to serve the senior population.” If she could change anything about healthcare today, she would make it more equal and accessible. To keep up with the latest medical advancements, Ashley Uney conducts research and attends conferences. “I am a strong believer in continued education,” she says.

In her free time, Ashley Uney enjoys spending time with her family. Being new to Florida, they especially love visiting the pool and beach.
