“I truly care that you feel better, and I would be honored to be part of the team that takes care of you.”

About Christopher Oldrich, DPM

Dr. Christopher Oldrich was inspired to work in healthcare by his mother, who was also a physician. “I looked up to her with the way she cared for her patients and had the love and respect of her patients and colleagues,” he says. Dr. Oldrich actively listens to his patients and is proud to serve the senior population. His favorite part of being a physician is building relationships with patients. “I truly care that you feel better, and I would be honored to be part of the team that takes care of you,” he says.

Spending quality time with family is very important to Dr. Oldrich. He also enjoys practicing martial arts and playing the drums. Dr. Oldrich says he is adventurous with food and will try almost anything once.
