

“I wanted to advocate for seniors, as they are more vulnerable and need support and compassion.”

About Mayada Ali, MD

As a child, Dr. Mayada Ali knew she wanted to pursue a career in healthcare. Her favorite part of her profession is building relationships with patients. “I am a compassionate person. I will be there for them when they need me,” she says. She loves seeing patients make healthy changes in their lives and considers it an honor to care for the senior population. She explains, “I grew up in a community where seniors are the most respectful and most valuable members in the family.” She adds, “So, when I came to practice in the US, I wanted to advocate for seniors, as they are more vulnerable and need support and compassion.”

When not with patients, Dr. Ali loves spending time with family. She also enjoys cooking and trying new recipes.
