

**“I strive to take the time to sit and listen to my patients, hear their stories, learn about their values and discuss their priorities as they relate to their health, so that I may serve them as best as I can.”**

**About Siraa Dawood, MD**

Dr. Siraa Dawood was inspired by his mother, who is a nurse, to pursue a career in healthcare. He explains that he has always loved watching his mother “convey her passion for her patients and enthusiasm for helping and serving others.” Some of his specialties as a physician include preventative health, migraine management, and sports medicine. “I strive to take the time to sit and listen to my patients, hear their stories, learn about their values, and discuss their priorities as they relate to their health, so that I may serve them as best as I can,” he says.

When not with patients, Dr. Dawood can be found enjoying nature. He especially loves hiking. He also enjoys going to the gym and searching for the best chocolate milk.
