

“I believe that if we can identify the risks of every individual by screening and implement preventative lifestyle changes early in life, we can give everyone a chance at a long, healthy, and productive life.”

About Vyas Dake, MD, MS, CPE, FAAFP

Dr. Vyas Dake always knew that medicine was his calling. His favorite part of being a physician is “having the ability to make a real, tangible difference in people’s health.” He loves connecting with patients and always takes the time to listen to their concerns. He is passionate about preventative care and likes encouraging patients to be active in the decision-making surrounding their health. “I believe that if we can identify the risks of every individual by screening and implement preventative lifestyle changes early in life, we can give everyone a chance at a long, healthy, and productive life,” he says.

When not with patients, Dr. Dake loves reading, riding bikes, and spending time with his family. He also enjoys archery.
