

“I put their concerns and interests first, and I try to be reliable when they need me.”

About Elyse Octave, MD

Dr. Elyse Octave knew as a teenager that he wanted to pursue a career in healthcare. “Being in a position where I can make an impact on patients’ health” is his favorite part of his profession. He describes himself as “a very open person” and says honesty is key in his practice. “I put their concerns and interests first, and I try to be reliable when they need me,” he says. He loves serving the senior population. “I am very comfortable managing chronic conditions,” he adds. To keep up with the ever-evolving world of medicine, he regularly reads.

When not caring for patients, he can be found spending time with his family. He also enjoys listening to music, reading, and exercising in his free time.
