

“Helping patients to understand complicated medical conditions as well as complicated aspects of the healthcare system are rewarding aspects of my job.”

About Robert Perkins, DO

At a young age, Dr. Robert Perkins recognized his drive to “connect with people and help them to positively change their life.” He loves building trusting relationships with patients. He says his favorite part of his profession is “seeing my patients achieve their health care goals by using the knowledge or treatments I provide or recommend.” He adds, “Helping patients to understand complicated medical conditions as well as complicated aspects of the healthcare system are rewarding aspects of my job.”

In his free time, Dr. Perkins loves spending time with his wife and two boys and when he is not doing yard work, he is restoring his old Germantown home. He is also a huge Philadelphia sports fan.
