

**“I hope to bring as much information to them as possible and deepen the patient-doctor relationship as much as possible.”**

#### **About Roberta Joseph, MD**

Dr. Roberta Joseph has had an interest in healthcare since she was a little girl. “I believe each person has a story to tell,” she says. She advocates for frequent visits to better understand her patients. “I hope to bring as much information to them as possible and deepen the patient-doctor relationship as much as possible,” she says. She adds, “Prevention is key, and I hope that I can get my patients on board.” She considers the senior population to be the backbone of society. “I have a deep love for the older age population,” she says. She believes in open communication and is dedicated to advocating for her patients.

Dr. Joseph can be found spending time with friends and family or reading in her down time.
