“I am dedicated to helping patients reach their most optimal level of health.”

About Cynthia Gary, MSN

As a nurse practitioner, Cynthia Gary strives “to make patients feel valued as a person.” She explains, “I allow the patient to tell me what he/she hopes to gain from our connection. I get an understanding of the patient’s perspective of their own health, and I explain to them everything ChenMed has to offer in order to help them reach their personal health goals.” She takes pride in serving as a supporter and advocate for patients. She explains that she is always “open and honest with them about their health and treatments.” She adds, “I am dedicated to helping patients reach their most optimal level of health.”

In her free time, Cynthia Gary enjoys quality time with her family. She also loves decorating and making various crafts.
