**“My commitment is to be a reliable support system for my patients, ensuring they understand their situation and feel empowered to make informed decisions about their health and well-being.”**

### About Adbah Mohamed, DO

Dr. Adbah Mohamed’s passion for medicine is “driven by the desire to improve others’ lives” just as physicians did for her father. “Meeting new people and learning about their life” is her favorite part of her profession. She strives to keep patients “well-informed about their medical conditions.” She explains, “My commitment is to be a reliable support system for my patients, ensuring they understand their situation and feel empowered to make informed decisions about their health and well-being.” She is committed to lessening the challenges her senior patients face.

Dr. Mohamed loves spending her free time with family and friends. She also enjoys scrapbooking and building hot wheel cities with her sons.
