

**“I have always wanted to make the world a better place, and healthcare is the perfect setting to put this philosophy into action.”**

#### **About Lisa Cox, MSN, FNP-BC**

Lisa Cox is grateful for the opportunity to make a difference in people’s lives. “I have always wanted to make the world a better place, and healthcare is the perfect setting to put this philosophy into action,” she says. She enjoys getting to know her patients. “I know more about medicine, but they are the expert when it comes to their own life, struggles, and capabilities. I want to understand these, so we can build on their strengths and address challenges together,” she explains. She believes healthcare should focus more on wellness rather than only sickness.

In her free time, Lisa Cox loves spending time with her daughter and mom. She also finds joy in engaging in various art projects, like embroidery and crocheting.
