

**“I get up every day for work striving to be a tireless advocate for my patients in whatever way is needed.”**

#### **About Colin Good, DO**

Dr. Colin Good chose to pursue a career in medicine to work “toward the health and healing of people and communities.” He finds it incredibly rewarding to care and advocate for his patients as they age. “I work hard to make the encounters comfortable and engaging. I want the time to be valuable and productive all while getting to know them better,” he explains. If he could change anything about healthcare today, he would simplify the process. He adds, “I get up every day for work striving to be a tireless advocate for my patients in whatever way is needed.”

Dr. Good loves spending time in nature. When not caring for patients, he can be found hiking or kayaking with his family. He is also fascinated with storm chasers.
