“There is no better feeling than being there for a patient during their times of greatest need or celebrating their healthcare victories.”

About Michael Kaplan, MD

Dr. Michael Kaplan, who was raised in a family of doctors, says his passion for the health sciences and his love for helping others led him to pursue a career as a physician. “There is no better feeling than being there for a patient during their times of greatest need or celebrating their healthcare victories,” he says. He believes healthcare should be patient-centered and views his relationships with patients as partnerships. “I show how and why I give recommendations and empower my patients to make the best healthcare decisions together,” he explains.

Dr. Kaplan is a new father, and when he is not with patients, he loves spending time with his family. He enjoys swimming, playing tennis, and loves eating very spicy foods.
