Medical Center
A CHENMED COMPANY

“It is not how much I know but how much we are going to learn together how to have more good days.”

About Eliezer Rudy Gomez, MD, FAAFP

Growing up, Dr. Eliezer Rudy Gomez was inspired to pursue a career in medicine by his family members who worked in healthcare. He loves learning about his patients and their lives, explaining that it helps him provide tailored, individualized care. Rudy likes collaborating with patients to develop “specific and attainable short and long term goals” to help them manage their health. He loves teaching patients about their conditions and “empowering them to be proactive in caring for themselves.” He adds, “It is not how much I know but how much we are going to learn together how to have more good days.”

In his free time, Rudy can be found putting together 3D wooden puzzles to gift to friends and family.
