“We can succeed in tackling any obstacles with open communication.”

About Nishit Jhaveri, M.D.

For Dr. Nishit “Nish” Jhaveri, caring for elderly patients is the “most challenging and rewarding job.” He adds, “Keeping people out of the hospital and healthy is my calling.” He believes in maintaining a collaborative partnership with patients and strives to build trust by listening to their concerns. “We can succeed in tackling any obstacles with open communication,” he explains. He strives to maintain a “positive attitude” and likes educating patients about their diagnoses to help alleviate their concerns and better develop a care plan.

When Nish is not caring for patients, he can be found enjoying quality time with family, reading, or playing badminton. He also enjoys traveling and listening to music.
