**“I love to impact the lives of people, particularly geriatrics, and addressing the unique medical needs of aging individuals, managing multiple conditions and medications, and focusing on overall function and quality of their lives.”**

### About Deborah Hayford, MSN, APRN, FNP-C

Deborah “Debbie” Hayford strives to make a difference in her patients’ lives by “trying to create and add value” at every encounter. She elaborates, “I love to impact the lives of people, particularly geriatrics, and addressing the unique medical needs of aging individuals, managing multiple conditions and medications, and focusing on overall function and quality of their lives.” She enjoys getting to know her patients and learning “who and what is important to them,” so she can better create personalized care and treatment plans.

When not with patients, Debbie can be found spending quality time with her kids or volunteering in her local church and community. She also likes traveling and sight seeing.
