“Quality care means staying alert and acting with purpose.”

About Osmaickel Redondo Escudero, MD

Dr. Osmaickel Redondo Escudero was inspired to pursue medicine after witnessing a major accident in his hometown, where a single physician courageously cared for all patients on his own. That moment shaped his dedication to medicine and his drive to show up fully for those in need. Known for his strong clinical judgment and ability to perform under pressure, Dr. Redondo Escudero brings hypervigilance and a sense of urgency to every patient encounter. "Quality care means staying alert and acting with purpose," he says. A natural team player, he is passionate about building meaningful connections with his patients and delivering care they can count on.

Dr. Redondo Escudero is bilingual, fluent in both Spanish and English, allowing him to effectively serve a diverse patient population. When he's not with patients, he enjoys fishing and cheering on his favorite soccer and baseball teams.
