“I believe in clear, honest communication and in creating a safe space where patients feel heard and supported.”

About Jesus Manuel Garcia Fernandez, APRN

“A deep interest in science paired with a strong desire to make a tangible difference in people’s lives” led Jesus Manuel Garcia Fernandez to a career in healthcare. “Early on, I witnessed how compassionate care could improve not just physical health but emotional well-being too,” he says. He makes it a priority to be present with his patients, explaining that he wants them “to feel heard, not just treated.” To accomplish this, he takes the time to understand his patients and learn what is most important to them. “I believe in clear, honest communication and in creating a safe space where patients feel heard and supported,” he says.

In his free time, Jesus loves connecting with family, enjoying the outdoors, and trying new recipes.
