**“Improving patients' quality of life is one of the most rewarding aspects of being a provider.”**

### About Matthew Hay, PA-C

Matthew "Matt" Hay has always had a passion for working with and helping people. Starting as an Athletic Trainer in college, he discovered he could make an even greater impact in healthcare as a physician assistant. Now with more than 25 years of experience as a certified PA — spanning the operating room, emergency room, and orthopedic clinic — Matt brings a wealth of diverse clinical expertise to his patients. Having spent the last 19 years in orthopedic care, seniors have made up half of his patient population. "The senior population has always had a better perspective on not only their health but just life in general," he says. "They make providing care a more interactive and better experience."

Matt builds relationships by getting to know his patients on a personal level over time. "Knowing your patient establishes trust, better communication, and better outcomes," he says. For Matt, job satisfaction is directly tied to patient outcomes. "Improving patients' quality of life is one of the most rewarding aspects of being a provider," he says.
