## About Hector De Los Santos, MD

Dr. Hector De Los Santos Hernandez was drawn to medicine by the opportunity to make a meaningful difference in people's lives. He finds it especially rewarding to help seniors maintain their health, independence, and quality of life. Dr. De Los Santos Hernandez builds relationships by listening attentively, being approachable, and treating each person with empathy and respect. He strives to understand the barriers his patients face and creates individualized care plans that truly address their unique needs. "I believe in treating every patient with kindness, respect, and compassion, while making sure they feel comfortable and involved in their healthcare decisions," he says.

When not with patients, Dr. De Los Santos Hernandez enjoys reading novels, watching films, swimming, traveling to explore new cultures, and spending time with his two cats, Monica and Scratch.
