

THE VACCINES HAVE ARRIVED.

Finally.

We've all been waiting for a long time for a **COVID-19 vaccine** to be developed, tested, approved, manufactured, delivered and dispensed. Well, that moment has come.

We're sure you have many questions. Everyone does. But we do know this.

We will continue to be a trusted source for the latest, most accurate news and information available. We will promptly update you when new information is made available.

We will always do everything possible to keep you healthy and safe.

As you have probably heard, two **COVID-19 vaccines have been authorized for use in the U.S.** Currently, they are being distributed among the 50 states and are being administered to the highest risk groups first including front-line healthcare workers, first responders, the elderly and others at great risk.

We're working night and day to obtain enough vaccine for everyone: our patients, physicians and staff. As more information becomes available, we will let you know as soon as possible.

Please continue to stay safe by wearing a mask, washing your hands, practicing social distancing and forgoing non-essential travel.
